FYI

Dear Buyer, Here at SCRAPSMUSIC we care about our sheets and yours. Because we care, all of our sheets are maintained in acid-free, archival-quality slip covers with a buffered backboard - this, then, becomes part of your purchase. If you keep your sheet music away from direct sunlight, moisture, excessive heat, cold, and airborne contaminants then your collectible could last for many long, enjoyable years ahead. Thank you for your purchase! We appreciate your business and look forward to having you back again soon.

Sincerely,

Jeanne Graves Stehman
